

## ***SCB-1600 W/BH-16 Shotblasting Head Attachment***

### **INFORMATION**

After 18 years of research, development, and testing, BW Manufacturing, Inc. has produced the only shot blast / scarifying machine in the market today. With a state of the art blasting head to eliminate problems inherent in competitive units. The SCB-1600 with the BH-16 Shotblasting Head Attachment gives you unmatched production with efficient operation and low maintenance.

The SCB-1600 with the BH-16 Shotblasting Head Attachment has a 16" wide blast path eliminates "zebra stripes". The BH-16 Blasthead provides a feathered blasting edge enabling each successive path to overlap without excessive penetration omitting the stripping effect which is common to other competitive machines. The finished surface is ideal for thin-set applications or for use with clear coatings.

Designed with the operator in mind, the SCB-1600 with the BH-16 Shotblasting Head Attachment uses one control for all machine operations along with power steering, adjustable seat with arm rest and full visibility in front and behind either head attachment. Any operator will feel comfortable running the SCB-1600.

With the removable heads on the SCB-1600, all replaceable wear items are easily accessible. General maintenance can be made through the removable panels.

Using the latest technology in EPA approved liquid cooled diesel engines and optional catalytic converter, you are far below any minimal emissions standards. With the use of state of the art components, compressors, electronic pulsation, hydraulics, and drives, the SCB-1600 is the most reliable and productive surface preparation machine on the market today.

## Chassis/Specifications

<b><u>Interchangeable Head:</u></b>	Shotblast Scarifier
<b><u>Tires:</u></b>	Non-marking
<b><u>Length:</u></b>	112"
<b><u>Width:</u></b>	56"
<b><u>Height:</u></b>	62"
<b><u>Weight:</u></b>	4480 lbs.
<b><u>Engine (Turbo Diesel):</u></b>	86 hp
<b><u>Drive:</u></b>	Hydrostat
<b><u>Compressor:</u></b>	Liquid Cooled 13 cfm.
<b><u>Vacuum:</u></b>	2280 cfm.
<b><u>Steering:</u></b>	Power
<b><u>Collector Capacity:</u></b>	19.67 cubic ft.
<b><u>Aisle Width Min:</u></b>	78" (Blastable Width)

## Accessories

- 10129-B**  
Blend Filter (standard)  
99.7% Efficiency @ .05 Microns
- 10129-D**  
Moisture Resistant (optional)  
99% Efficiency @ 1-2 Microns
- 10129-H**  
HEPA (optional) (Special Order)  
99.995% Efficiency @ .03 Microns

## Shot Blast/Specifications

<b><u>Production Capacity:</u></b>	2000 to 5000 sfh
<b><u>Cleaning Path:</u></b>	16" (4"&5" Adaptors Available)
<b><u>Width with attachment:</u></b>	56"
<b><u>Weight:</u></b>	375 lbs.
<b><u>Aisle Width Min:</u></b>	78" (Blastable Width)

- H-042-MS**  
Blast Drum Blade Set  
(6 blades per set)

## SHOTBLASTER APPLICATIONS

- INDUSTRIAL FLOORS
- BRIDGE DECKS
- PARKING DECKS
- LINE STRIPES
- AIRPORT RUNWAYS & HANGERS
- STEEL DECKING
- HIGWAYS

- SCB-1634**  
Exhaust Scrubber/Muffler
